GILBERT KARIITHI IHUGO

Nairobi, Kenya | Open to Remote Work (Global) | scanointgilbert7076@gmail.com | +254 746 750 677

PROFESSIONAL SUMMARY

Detail-oriented Data Entry and Data Support Specialist with hands-on experience in data entry, data cleaning and validation, records management, database support, customer information management, documentation, and remote client support. Skilled in Microsoft Excel, Word, PowerPoint, Google Sheets, CRM and database platforms, ticketing systems, and AI tools. Proven ability to follow SOPs, protect confidential information, identify data inconsistencies, maintain accurate records, and deliver work independently across time zones. Also experienced in ICT technical support, AI data annotation and model testing, and web/UI/UX development. Native Swahili speaker with fluent professional English, offering strong potential for data operations, AI training, localization, and remote support roles.

Database & Records Management	Microsoft Excel & Google Sheets	CRM & Customer Data
Quality Checking & Accuracy	Document Processing & Reporting	SOP & Process Compliance
Confidential Data Handling	ICT & Technical Support	Remote Client Communication
Ticketing & Service Records	AI Model Testing & Evaluation	Web & UI/UX Development

PROFESSIONAL EXPERIENCE

Freelance Data Entry & Data Support Specialist

Remote | International Clients | July 2024 – Present

• Perform day-to-day data entry, data cleanup, formatting, and record maintenance across spreadsheets and small databases for overseas clients.

• Review source data for errors, inconsistencies, and missing information before final submission, improving record accuracy and reducing avoidable rework.

• Maintain confidential client records and communications while following client-specific data-handling procedures and SOPs.

• Organize digital files and folder structures to improve document retrieval, consistency, and workflow efficiency.

• Communicate proactively with clients regarding task progress, priorities, and turnaround times while coordinating across multiple time zones.

Customer Support Agent

CCI | Remote | April 2023 – March 2025

• Accurately updated customer account information and interaction notes during and after customer engagements.

• Followed established data-entry procedures to maintain consistent, reliable customer database records.

• Balanced speed, accuracy, service quality, and documentation requirements while handling a steady volume of customer interactions.

UI/UX & Web Development Freelancer

Self-Employed | Remote | 2022 – Present

• Design and develop web interfaces and digital solutions while translating requirements into structured, user-focused experiences.

• Apply problem-solving, documentation, and quality-checking skills across independent projects and client requirements.

ICT Technician & Technical Support

Computer Ways Limited | Nairobi, Kenya | May 2020 – October 2021

• Logged and maintained service records, equipment inventories, job reports, and technical documentation as part of daily ICT support operations.

• Documented inspections and service histories clearly, enabling effective record retrieval and continuity across support activities.

• Standardized report-recording practices to improve tracking of recurring technical issues across service jobs.

• Diagnosed client technical issues, tracked support tickets, and documented solutions to support timely resolution and follow-up.

EDUCATION

Diploma in Information Technology — Nairobi Institute of Business Studies | 2025

Certificate in ICT — National Industrial Training Authority | 2021

CERTIFICATIONS

• HP LIFE — AI for Business Professionals
